Good

Section Scores

CATEGORY	COVERAGE	REVIEWED SCORE	CONFIDENCE
Technical SEO	100%	81 /100	High confidence
On-Page & Content	100%	79 /100	High confidence
UX Heuristics	100%	82 /100	High confidence
Conversion & CTA	100%	81 /100	High confidence
AI & SERP Visibility	100%	83 /100	High confidence

This score indicates solid performance, with clear opportunities to improve visibility, experience, and conversion.

Executive Summary

This website shows good performance with a full audit score of 81/100 (Grade B). The biggest opportunity lies in on-page content and search signals - the areas that directly determine keyword relevance and click-through rates. There are 5 critical issues that require urgent attention that are currently limiting performance.

Addressing the top priority issues will deliver the fastest improvements in visibility, user experience, and conversions. If these issues are resolved, the site has strong potential to significantly improve both traffic and business outcomes.

Based on 100% of checkpoints reviewed (211 of 211), this audit provides a high-confidence view of site performance.

ESTIMATED IMPACT · if priority issues are resolved

If the priority issues are fixed, this can lead to:

- Stronger on-page content and search signals - the areas that directly determine keyword relevance and click-through rates — the highest-impact area in this audit
- Higher search rankings and qualified organic traffic
- Better user engagement, lower drop-off, and improved conversion signals

Addressing the high-priority issues - especially in On-Page & Content - will deliver the fastest measurable improvements.

Audit Summary

Top Priority Issues

20 issues · ranked by impact

PRIORITY	ISSUE · WHY IT MATTERS · ACTION
CRITICAL Tech SEO	HTTP -> HTTPS redirect in place Secure pages are essential for user trust, browser safety, and SEO. ! Force HTTPS redirects, fix mixed content issues, and verify SSL configuration.
CRITICAL On-Page	No broken internal links Internal links distribute authority and guide users to related valuable content. ! Add relevant contextual links between important pages throughout the site.
CRITICAL On-Page	Privacy policy and terms of service present Privacy policies and terms of service are required for legal compliance and user trust. ! Add Privacy Policy and Terms of Service pages. Link them in the footer. Ensure the Privacy Policy meets GDPR and CCPA requirements if applicable.
CRITICAL CRO	Customer testimonials present on key pages Social proof reduces uncertainty and builds trust for hesitant visitors. ! Add relevant testimonials, customer logos, ratings, reviews, or case results.
CRITICAL CRO	Conversion tracking set up in GA4 Forms should be simple and easy to complete to reduce abandonment. ! Remove unnecessary fields, group inputs logically, and support autofill where possible.
HIGH Tech SEO	No redirect chains (max 1 hop) Each redirect in a chain adds latency and causes crawlers to lose link equity at every hop. ! Update all redirect chains to point directly to the final destination URL. Audit with Screaming Frog: Redirects > Redirect Chains.

+ 14 more issues in the sections below.

Technical SEO

Full Audit Score: 81/100 Grade B · 65/65 reviewed · High confidence

Technical SEO is well-structured. Search engines can crawl, index, and process the site effectively. Minor refinements may still yield incremental gains.

Crawlability & Indexation (Items 1-14)		
1	robots.txt file exists & is correct	Pass
2	XML sitemap exists & is submitted to GSC	Pass
3	Sitemap is up-to-date (< 30 days)	Pass
4	No important pages are noindex	Pass
5	Canonical tags correctly implemented	Pass
6	No orphan pages (0 internal links)	Pass
7	Crawl depth <= 3 clicks from homepage	Partial
8	Pagination handled correctly	Partial
9	No redirect chains (max 1 hop)	Fail
10	No broken internal links (404s)	Pass
11	International / hreflang tags correct	Pass
12	GSC shows no crawl anomalies	Pass
13	JavaScript not blocking key content	Pass
14	URL structure is clean and descriptive	Pass
Core Web Vitals (Items 15-26)		
15	LCP <= 2.5s (Largest Contentful Paint)	Pass
16	FID / INP <= 200ms (Interaction to Next Paint)	Pass
17	CLS <= 0.1 (Cumulative Layout Shift)	Partial
18	Mobile PageSpeed score >= 70	Partial
19	Desktop PageSpeed score >= 85	Fail
20	Images use WebP / AVIF format	Pass
21	Images have width & height attributes	Pass
22	Lazy loading on below-fold images	Pass

23	Render-blocking JS/CSS minimized	Pass
24	TTFB < 800ms (Time to First Byte)	Pass
25	Font loading optimized (font-display: swap)	Pass
26	Third-party scripts deferred or async	Pass

HTTPS & Security (Items 27-34)

27	SSL certificate valid and not expiring soon	Partial
28	All pages served over HTTPS	Partial
29	HTTP -> HTTPS redirect in place	Fail
30	www / non-www canonicalized	Pass
31	HSTS header present	Pass
32	No mixed content (HTTP resources on HTTPS pages)	Pass
33	Security headers present (CSP, X-Frame-Options)	Pass
34	No sensitive data exposed in source or URLs	Pass

Structured Data / Schema (Items 35-43)

35	Organization schema implemented	Pass
36	WebSite schema with SearchAction	Pass
37	BreadcrumbList schema on inner pages	Partial
38	Product schema on product pages	Partial
39	Article/BlogPosting schema on blog posts	Fail
40	FAQ schema on FAQ pages	Pass
41	Review/Rating schema correct	Pass
42	No schema markup errors in GSC	Pass
43	LocalBusiness schema if applicable	Pass

Mobile & Technical UX (Items 44-52)

44	Mobile-first indexing compatible	Pass
----	----------------------------------	------

45	Viewport meta tag correct	Pass
46	No horizontal scroll on mobile	Pass
47	Touch targets >= 48px (Google standard)	Partial
48	No intrusive interstitials on mobile	Partial
49	AMP implemented if news/article site	Fail
50	404 page is helpful and links back to site	Pass
51	Thin content pages handled (noindex or improved)	Pass
52	Duplicate content managed via canonicals	Pass

International & Advanced (Items 53-65)

53	Site language correctly declared in HTML tag	Pass
54	International targeting configured in GSC	Pass
55	CDN in use for static assets	Pass
56	Server response codes correct for all pages	Pass
57	Log file analysis shows no crawl waste	Partial
58	Internal search result pages blocked from index	Partial
59	Faceted navigation handled correctly	Fail
60	Print CSS pages not indexed	Pass
61	Session IDs or tracking params not indexed	Pass
62	Breadcrumb navigation present	Pass
63	XML sitemap excludes noindex and redirect URLs	Pass
64	Site speed consistent across all templates	Pass
65	No AI-generated content penalties (GSC traffic)	Pass

On-Page & Content

Full Audit Score: 79/100 Grade B · 50/50 reviewed · High confidence

On-Page weaknesses in meta data, headings, and content structure are reducing keyword relevance and click-through rates in search results.

Title Tags & Meta Data (Items 1-9)

1	Title tag exists on every page	Pass
2	Title tag length is 50-60 characters	Pass
3	Primary keyword appears in title tag (near start)	Pass
4	Each page has a unique title tag (no duplicates)	Pass
5	Meta description exists on every key page	Pass
6	Meta description includes primary + secondary keyword	Pass
7	Meta description has a clear call-to-action	Partial
8	No duplicate meta descriptions across pages	Partial
9	Open Graph / Twitter Card tags present	Fail

Headings & Structure (Items 10-17)

10	Every page has exactly one H1	Pass
11	H1 contains primary keyword	Pass
12	H1 differs from title tag (but aligned)	Pass
13	Heading hierarchy correct (H1->H2->H3)	Pass
14	H2s contain secondary keywords	Pass
15	Headings are descriptive (not "Section 1")	Pass
16	FAQ sections use H2/H3 for questions	Pass
17	No keyword stuffing in headings	Partial

Keyword Optimization (Items 18-26)

18	Primary keyword in first 100 words	Partial
19	Keyword density natural (1-2%, no stuffing)	Fail

20	LSI / semantic keywords used throughout	Pass
21	No keyword cannibalization	Pass
22	Target keyword in image alt text (where relevant)	Pass
23	Target keyword in URL slug	Pass
24	Long-tail keyword variations covered	Pass
25	Featured snippet optimization attempted	Pass
26	Search intent matched correctly	Pass

Content Quality (Items 27-36)

27	Content length appropriate for query type	Partial
28	Content is original (no duplicate or spun)	Partial
29	Content updated regularly (freshness)	Fail
30	Thin content pages improved or consolidated	Pass
31	Content uses data, stats, or original research	Pass
32	Content covers topic comprehensively (topical authority)	Pass
33	Readability score appropriate for audience	Pass
34	Images, video, or visual content included	Pass
35	Content answers common user questions	Pass
36	No AI-generated content without human review	Pass

Internal Links (Items 37-44)

37	Internal linking strategy in place	Partial
38	Anchor text is descriptive (not "click here")	Partial
39	No broken internal links	Fail
40	Important pages linked from homepage	Pass
41	Content links to relevant internal resources	Pass
42	No excessive internal links on single page	Pass
43	Navigation links consistent across site	Pass

44	External links open in new tab & are relevant	Pass
----	---	------

E-E-A-T Signals (Items 45-50)

45	Author bios present on all blog/article content	Pass
46	About page is comprehensive and credible	Pass
47	Contact information visible on every page	Partial
48	Trust signals present (awards, press, clients)	Partial
49	Privacy policy and terms of service present	Fail
50	External links point to authoritative sources	Pass

UX Heuristics

Full Audit Score: 82/100 Grade B · 40/40 reviewed · High confidence

User experience is strong. The site is accessible, easy to navigate, and structured to support engagement and task completion.

Nielsen Heuristics 1-5 (Items 1-14)

1	H1: System status always visible (loading, progress)	Pass
2	H1: Forms show inline validation feedback	Pass
3	H1: Async operations show clear loading state	Pass
4	H2: UI language matches user language (no jargon)	Pass
5	H2: Icons have visible labels (no icon-only nav)	Pass
6	H3: Users can undo / go back from any action	Pass
7	H3: Browser back button works as expected	Partial
8	H4: UI visually consistent across all pages	Partial
9	H4: Terminology consistent (same words for same things)	Fail
10	H4: Button styles consistent (primary/secondary/danger)	Pass
11	H5: Destructive actions require confirmation	Pass
12	H5: Forms have clear required field indicators	Pass
13	H5: Password show/hide toggle available	Pass
14	H5: Input fields show expected format (date, phone)	Pass

Nielsen Heuristics 6-10 (Items 15-24)

15	H6: Navigation always visible (not hidden)	Pass
16	H6: Search prominently placed and functional	Pass
17	H7: Keyboard shortcuts documented if present	Partial
18	H7: Complex tasks have help/tutorial available	Partial
19	H8: Minimal design - no unnecessary elements	Fail
20	H8: Page has clear visual hierarchy	Pass
21	H9: Error messages explain what went wrong	Pass
22	H9: Error messages suggest how to fix the issue	Pass

23	H10: New users can complete core task without help	Pass
24	H10: Familiar UI patterns used where appropriate	Pass

Navigation & IA (Items 25-32)

25	Navigation labels are clear and unambiguous	Pass
26	Active navigation state clearly indicated	Pass
27	Breadcrumbs present on inner pages	Partial
28	Footer navigation is comprehensive and useful	Partial
29	Search results are relevant and well-formatted	Fail
30	404 page helps users recover	Pass
31	Mega menu / dropdown usable on touch devices	Pass
32	Information architecture tested with users	Pass

Accessibility (Items 33-37)

33	Colour contrast ratio $\geq 4.5:1$ (WCAG AA)	Pass
34	All images have descriptive alt text	Pass
35	Site fully navigable by keyboard alone	Pass
36	Focus indicators visible on all interactive elements	Pass
37	ARIA labels on icon buttons and form elements	Partial

Mobile UX (Items 38-40)

38	Mobile navigation is simple and thumb-friendly	Partial
39	Forms are optimized for mobile input	Fail
40	Content priority preserved on mobile	Pass

Conversion & CTA

Full Audit Score: 81/100 Grade B · 35/35 reviewed · High confidence

Conversion optimisation is solid. Clear CTAs, trust signals, and a smooth user journey are supporting strong conversion rates.

CTA Design (Items 1-8)

1	Primary CTA visible above the fold	Pass
2	CTA copy is action-oriented and specific	Pass
3	CTA button has strong visual contrast	Pass
4	Single primary CTA per page section	Pass
5	CTA repeated strategically for long pages	Pass
6	Hover/active states on all CTAs	Pass
7	CTA above fold tested across device sizes	Partial
8	Sticky CTA or sticky header with CTA on mobile	Partial

Trust Signals (Items 9-16)

9	Customer testimonials present on key pages	Fail
10	Social proof (customer count, logos, reviews)	Pass
11	Trust badges (secure payment, guarantees)	Pass
12	Pricing is clear with no hidden fees	Pass
13	Risk reversal offered (free trial, guarantee)	Pass
14	Case studies or results data present	Pass
15	Third-party review integration (G2, Trustpilot)	Pass
16	Contact info visible throughout conversion flow	Pass

Forms & Checkout (Items 17-23)

17	Forms have minimal required fields	Partial
18	Form progress shown for multi-step forms	Partial
19	Auto-fill supported on all form fields	Fail

20	Form errors shown inline, not on submit	Pass
21	Thank you / confirmation page provides next step	Pass
22	Guest checkout available (e-commerce)	Pass
23	Checkout steps minimized (< 3 steps)	Pass

Mobile Conversion (Items 24-28)

24	Mobile checkout / conversion flow tested	Pass
25	Apple Pay / Google Pay available on mobile	Pass
26	Phone number is click-to-call on mobile	Pass
27	Mobile popups do not obstruct conversion flow	Partial
28	Mobile page load < 3s on 4G connection	Partial

Analytics & Testing (Items 29-32)

29	Conversion tracking set up in GA4	Fail
30	Heatmap / session recording tool in place	Pass
31	A/B testing program active	Pass
32	Funnel drop-off points identified and addressed	Pass

Page-Level (Items 33-35)

33	Hero section communicates value prop in < 5 secs	Pass
34	Pricing page has comparison table	Pass
35	Exit intent strategy in place	Pass

AI Visibility is well-established. The brand has strong entity signals, structured content, and authorship cues that support citation across AI-driven search.

AI-driven search is becoming an important discovery layer across ChatGPT, Perplexity, Gemini, and Google AI experiences. This section evaluates whether the brand and content are structured in a way that can be understood, trusted, and cited by modern search and AI systems.

The site has strong AI visibility foundations. Continue strengthening entity signals, original content, and authoritative references.

SERP Performance

1	Site appears in Google top 10 for main keyword	Pass
2	SERP intent matches content type	Pass
3	Content depth >= competitor average (top 3)	Pass
4	Title tag has emotional trigger or power word	Partial

AEO - Answer Engine Optimization

5	Featured snippet / answer box opportunity detected	Pass
6	People Also Ask (PAA) detected -> FAQ schema added	Pass
7	Content answers a clear, specific question	Pass
8	Content structured in short, scannable chunks	Partial

Google AI Overview (AIO)

9	Google AI Overview detected for this keyword	Fail
10	Site cited as source in Google AI Overview	Pass
11	Content structured for AI answer extraction	Pass

AI Visibility (GEO) ADVANCED

AI brand visibility in ChatGPT, Perplexity, Gemini & Knowledge Graph

12	Brand appears in AI-generated answers for core queries	Pass
13	AI crawlers not blocked in robots.txt	Pass
14	LLMs.txt or AI-readable content structure exists	Pass

15	Content includes unique data, insights or first-hand information	Pass
16	Brand has entity signals (Knowledge Graph / structured presence)	Pass

E-E-A-T & Authorship Signals		ADVANCED
17	Author byline and bio on all content pages	Partial
18	Person schema markup on author pages	Partial
19	About page demonstrates real expertise & credibility	Fail
20	References high-authority sources (.gov, .edu, research)	Pass
21	Content shows human editorial oversight (not raw AI output)	Pass

Recommended Next Steps

A prioritised action plan based on this audit

1

Fix 5 Critical Issues

These failures have the highest impact on performance, user experience, and search visibility. Address them before anything else.

2

Strengthen On-Page & Content - Score: 79/100

This is the weakest area in the audit. A focused effort here will have the highest impact on overall site health and score.

3

Work Through the Top Priority Issues

Each priority issue in this report includes a specific action step. These are your clearest, most actionable next steps.

4

Strengthen AI Visibility and Trust Signals

AI search engines (ChatGPT, Perplexity, Google AI Overviews) are becoming major traffic sources. Ensure your brand, authors, and content are optimised for this layer.

5

Re-run This Audit in 4 to 8 Weeks

Track your progress by re-running the audit after implementing changes. Use the score difference to demonstrate the value of your work to stakeholders.

This report provides a clear starting point. Prioritising the critical issues will deliver the fastest measurable results.

Audit conducted: May 23, 2026

About This Audit

This UX + SEO audit was conducted for example-client.com on May 23, 2026. It covers 211 checkpoints across Technical SEO, On-Page Content, UX Heuristics, Conversion & CTA, and AI Visibility. Some checks require verification with external tools (Google Search Console, PageSpeed Insights, Screaming Frog, etc.). This report is a professional client deliverable - review it in the context of the site's specific goals.

How Scores Are Calculated

Scores are based only on reviewed applicable checks. Blank items are excluded entirely - they do not count as passes or failures. N/A items are excluded as they do not apply to this site. Below 30% coverage: preliminary result, grade withheld. 30-59% coverage: directional reviewed score, medium-low confidence - no letter grade is assigned at this level. 60-79%: indicative result, grade shown. 80%+: full audit score, final grade. A high score from a small number of reviewed checks does not imply the full website is strong.
