Grade B

Good

Section Scores

CATEGORY	COVERAGE	REVIEWED SCORE	CONFIDENCE
Technical SEO	100%	84 /100	High confidence
On-Page & Content	100%	83 /100	High confidence
UX Heuristics	100%	86 /100	High confidence
Conversion & CTA	100%	83 /100	High confidence
AI & SERP Visibility	0%	—	Not evaluated

This score indicates solid performance, with clear opportunities to improve visibility, experience, and conversion.

Executive Summary

This website shows good performance with a full audit score of 84/100 (Grade B). The biggest opportunity lies in on-page content and search signals - the areas that directly determine keyword relevance and click-through rates. There are 3 critical issues currently limiting performance and requiring urgent attention.

Addressing the top priority issues will deliver the fastest improvements in visibility, user experience, and conversions. If these issues are resolved, the site has strong potential to significantly improve both traffic and business outcomes.

Based on 90% of checkpoints reviewed (190 of 211), this audit provides a high-confidence view of site performance.

ESTIMATED IMPACT · if priority issues are resolved

If the priority issues are fixed, this can lead to:

- A stronger on-page content and search signals - the areas that directly determine keyword relevance and click-through rates — the highest-impact area in this audit
- Higher search rankings and qualified organic traffic
- Better user engagement, lower drop-off, and improved conversion signals

Addressing the high-priority issues - especially in On-Page & Content - will deliver the fastest measurable improvements.

Audit Summary

Top Priority Issues

16 issues · ranked by impact

PRIORITY	ISSUE · WHY IT MATTERS · ACTION
CRITICAL Tech SEO	robots.txt file exists & is correct Search engines need clear crawling instructions to discover and process the right pages. ! Review robots.txt and ensure important pages and assets are not accidentally blocked.
CRITICAL UX	H3: Users can undo / go back from any action Clear headings make content easier to scan and understand. ! Use a logical H1-H2-H3 hierarchy and make every heading descriptive and purposeful.
CRITICAL CRO	CTA copy is action-oriented and specific Clear calls-to-action guide users toward the desired next step. ! Make primary CTAs visible, specific, benefit-driven, and visually distinct on every key page.
HIGH Tech SEO	JavaScript not blocking key content Content rendered only via JavaScript may not be indexed reliably by search engines. ! Use server-side rendering or dynamic rendering for critical content. Test with Google's URL Inspection tool > "View Crawled Page".
HIGH Tech SEO	Session IDs or tracking params not indexed Conversion tracking is needed to understand what is working and what is not. ! Configure GA4 events and conversions for all key user actions across the site.
HIGH On-Page	No duplicate meta descriptions across pages Meta descriptions influence how compelling the search result appears to users. ! Write unique, benefit-driven meta descriptions for all key pages (140-160 characters).

+ 10 more issues in the sections below.

Technical SEO is well-structured. Search engines can crawl, index, and process the site effectively. Minor refinements may still yield incremental gains.

Crawlability & Indexation (Items 1-14)

1	robots.txt file exists & is correct	Fail
2	XML sitemap exists & is submitted to GSC	Partial
3	Sitemap is up-to-date (< 30 days)	Pass
4	No important pages are noindex	Pass
5	Canonical tags correctly implemented	Pass
6	No orphan pages (0 internal links)	Pass
7	Crawl depth <= 3 clicks from homepage	Partial
8	Pagination handled correctly	Pass
9	No redirect chains (max 1 hop)	Pass
10	No broken internal links (404s)	Pass
11	International / hreflang tags correct	Pass
12	GSC shows no crawl anomalies	Pass
13	JavaScript not blocking key content	Fail
14	URL structure is clean and descriptive	Partial

Core Web Vitals (Items 15-26)

15	LCP <= 2.5s (Largest Contentful Paint)	Pass
16	FID / INP <= 200ms (Interaction to Next Paint)	Pass
17	CLS <= 0.1 (Cumulative Layout Shift)	Pass
18	Mobile PageSpeed score >= 70	Pass
19	Desktop PageSpeed score >= 85	Partial
20	Images use WebP / AVIF format	Pass
21	Images have width & height attributes	Pass
22	Lazy loading on below-fold images	Pass

23	Render-blocking JS/CSS minimized	Pass
24	TTFB < 800ms (Time to First Byte)	Pass
25	Font loading optimized (font-display: swap)	Fail
26	Third-party scripts deferred or async	Partial

HTTPS & Security (Items 27-34)

27	SSL certificate valid and not expiring soon	Pass
28	All pages served over HTTPS	Pass
29	HTTP -> HTTPS redirect in place	Pass
30	www / non-www canonicalized	Pass
31	HSTS header present	Partial
32	No mixed content (HTTP resources on HTTPS pages)	Pass
33	Security headers present (CSP, X-Frame-Options)	Pass
34	No sensitive data exposed in source or URLs	Pass

Structured Data / Schema (Items 35-43)

35	Organization schema implemented	Pass
36	WebSite schema with SearchAction	Pass
37	BreadcrumbList schema on inner pages	Fail
38	Product schema on product pages	Partial
39	Article/BlogPosting schema on blog posts	Pass
40	FAQ schema on FAQ pages	Pass
41	Review/Rating schema correct	Pass
42	No schema markup errors in GSC	Pass
43	LocalBusiness schema if applicable	Partial

Mobile & Technical UX (Items 44-52)

44	Mobile-first indexing compatible	Pass
----	----------------------------------	------

45	Viewport meta tag correct	Pass
46	No horizontal scroll on mobile	Pass
47	Touch targets >= 48px (Google standard)	Pass
48	No intrusive interstitials on mobile	Pass
49	AMP implemented if news/article site	Fail
50	404 page is helpful and links back to site	Partial
51	Thin content pages handled (noindex or improved)	Pass
52	Duplicate content managed via canonicals	Pass

International & Advanced (Items 53-65)

53	Site language correctly declared in HTML tag	Pass
54	International targeting configured in GSC	Pass
55	CDN in use for static assets	Partial
56	Server response codes correct for all pages	Pass
57	Log file analysis shows no crawl waste	Pass
58	Internal search result pages blocked from index	Pass
59	Faceted navigation handled correctly	Pass
60	Print CSS pages not indexed	Pass
61	Session IDs or tracking params not indexed	Fail
62	Breadcrumb navigation present	Partial
63	XML sitemap excludes noindex and redirect URLs	Pass
64	Site speed consistent across all templates	Pass
65	No AI-generated content penalties (GSC traffic)	Pass

On-Page & Content

Full Audit Score: 83/100 Grade B · 50/50 reviewed · High confidence

On-Page SEO is well-optimised. Content is clearly structured, keyword-aligned, and formatted to drive both rankings and click-through rates.

Title Tags & Meta Data (Items 1-9)		
1	Title tag exists on every page	Pass
2	Title tag length is 50-60 characters	Partial
3	Primary keyword appears in title tag (near start)	Pass
4	Each page has a unique title tag (no duplicates)	Pass
5	Meta description exists on every key page	Pass
6	Meta description includes primary + secondary keyword	Pass
7	Meta description has a clear call-to-action	Pass
8	No duplicate meta descriptions across pages	Fail
9	Open Graph / Twitter Card tags present	Partial

Headings & Structure (Items 10-17)		
10	Every page has exactly one H1	Pass
11	H1 contains primary keyword	Pass
12	H1 differs from title tag (but aligned)	Pass
13	Heading hierarchy correct (H1->H2->H3)	Pass
14	H2s contain secondary keywords	Partial
15	Headings are descriptive (not "Section 1")	Pass
16	FAQ sections use H2/H3 for questions	Pass
17	No keyword stuffing in headings	Pass

Keyword Optimization (Items 18-26)		
18	Primary keyword in first 100 words	Pass
19	Keyword density natural (1-2%, no stuffing)	Pass

20	LSI / semantic keywords used throughout	Fail
21	No keyword cannibalization	Partial
22	Target keyword in image alt text (where relevant)	Pass
23	Target keyword in URL slug	Pass
24	Long-tail keyword variations covered	Pass
25	Featured snippet optimization attempted	Pass
26	Search intent matched correctly	Partial

Content Quality (Items 27-36)

27	Content length appropriate for query type	Pass
28	Content is original (no duplicate or spun)	Pass
29	Content updated regularly (freshness)	Pass
30	Thin content pages improved or consolidated	Pass
31	Content uses data, stats, or original research	Pass
32	Content covers topic comprehensively (topical authority)	Fail
33	Readability score appropriate for audience	Partial
34	Images, video, or visual content included	Pass
35	Content answers common user questions	Pass
36	No AI-generated content without human review	Pass

Internal Links (Items 37-44)

37	Internal linking strategy in place	Pass
38	Anchor text is descriptive (not "click here")	Partial
39	No broken internal links	Pass
40	Important pages linked from homepage	Pass
41	Content links to relevant internal resources	Pass
42	No excessive internal links on single page	Pass
43	Navigation links consistent across site	Pass

E-E-A-T Signals (Items 45-50)

45	Author bios present on all blog/article content	Partial
46	About page is comprehensive and credible	Pass
47	Contact information visible on every page	Pass
48	Trust signals present (awards, press, clients)	Pass
49	Privacy policy and terms of service present	Pass
50	External links point to authoritative sources	Partial

UX Heuristics

Full Audit Score: 86/100 Grade B · 40/40 reviewed · High confidence

User experience is strong. The site is accessible, easy to navigate, and structured to support engagement and task completion.

Nielsen Heuristics 1-5 (Items 1-14)

1	H1: System status always visible (loading, progress)	Pass
2	H1: Forms show inline validation feedback	Pass
3	H1: Async operations show clear loading state	Pass
4	H2: UI language matches user language (no jargon)	Pass
5	H2: Icons have visible labels (no icon-only nav)	Pass
6	H3: Users can undo / go back from any action	Fail
7	H3: Browser back button works as expected	Partial
8	H4: UI visually consistent across all pages	Pass
9	H4: Terminology consistent (same words for same things)	Pass
10	H4: Button styles consistent (primary/secondary/danger)	Pass
11	H5: Destructive actions require confirmation	Pass
12	H5: Forms have clear required field indicators	Partial
13	H5: Password show/hide toggle available	Pass
14	H5: Input fields show expected format (date, phone)	Pass

Nielsen Heuristics 6-10 (Items 15-24)

15	H6: Navigation always visible (not hidden)	Pass
16	H6: Search prominently placed and functional	Pass
17	H7: Keyboard shortcuts documented if present	Pass
18	H7: Complex tasks have help/tutorial available	Fail
19	H8: Minimal design - no unnecessary elements	Partial
20	H8: Page has clear visual hierarchy	Pass
21	H9: Error messages explain what went wrong	Pass
22	H9: Error messages suggest how to fix the issue	Pass

23	H10: New users can complete core task without help	Pass
24	H10: Familiar UI patterns used where appropriate	Partial

Navigation & IA (Items 25-32)

25	Navigation labels are clear and unambiguous	Pass
26	Active navigation state clearly indicated	Pass
27	Breadcrumbs present on inner pages	Pass
28	Footer navigation is comprehensive and useful	Pass
29	Search results are relevant and well-formatted	Pass
30	404 page helps users recover	Fail
31	Mega menu / dropdown usable on touch devices	Partial
32	Information architecture tested with users	Pass

Accessibility (Items 33-37)

33	Colour contrast ratio $\geq 4.5:1$ (WCAG AA)	Pass
34	All images have descriptive alt text	Pass
35	Site fully navigable by keyboard alone	Pass
36	Focus indicators visible on all interactive elements	Partial
37	ARIA labels on icon buttons and form elements	Pass

Mobile UX (Items 38-40)

38	Mobile navigation is simple and thumb-friendly	Pass
39	Forms are optimized for mobile input	Pass
40	Content priority preserved on mobile	Pass

Conversion & CTA

Full Audit Score: 83/100 Grade B · 35/35 reviewed · High confidence

Conversion optimisation is solid. Clear CTAs, trust signals, and a smooth user journey are supporting strong conversion rates.

CTA Design (Items 1-8)		
1	Primary CTA visible above the fold	Pass
2	CTA copy is action-oriented and specific	Fail
3	CTA button has strong visual contrast	Partial
4	Single primary CTA per page section	Pass
5	CTA repeated strategically for long pages	Pass
6	Hover/active states on all CTAs	Pass
7	CTA above fold tested across device sizes	Pass
8	Sticky CTA or sticky header with CTA on mobile	Partial
Trust Signals (Items 9-16)		
9	Customer testimonials present on key pages	Pass
10	Social proof (customer count, logos, reviews)	Pass
11	Trust badges (secure payment, guarantees)	Pass
12	Pricing is clear with no hidden fees	Pass
13	Risk reversal offered (free trial, guarantee)	Pass
14	Case studies or results data present	Fail
15	Third-party review integration (G2, Trustpilot)	Partial
16	Contact info visible throughout conversion flow	Pass
Forms & Checkout (Items 17-23)		
17	Forms have minimal required fields	Pass
18	Form progress shown for multi-step forms	Pass
19	Auto-fill supported on all form fields	Pass

20	Form errors shown inline, not on submit	Partial
21	Thank you / confirmation page provides next step	Pass
22	Guest checkout available (e-commerce)	Pass
23	Checkout steps minimized (< 3 steps)	Pass

Mobile Conversion (Items 24-28)

24	Mobile checkout / conversion flow tested	Pass
25	Apple Pay / Google Pay available on mobile	Pass
26	Phone number is click-to-call on mobile	Fail
27	Mobile popups do not obstruct conversion flow	Partial
28	Mobile page load < 3s on 4G connection	Pass

Analytics & Testing (Items 29-32)

29	Conversion tracking set up in GA4	Pass
30	Heatmap / session recording tool in place	Pass
31	A/B testing program active	Pass
32	Funnel drop-off points identified and addressed	Partial

Page-Level (Items 33-35)

33	Hero section communicates value prop in < 5 secs	Pass
34	Pricing page has comparison table	Pass
35	Exit intent strategy in place	Pass

AI & SERP Visibility was not evaluated in this audit and should be assessed in a follow-up.

AI-driven search is becoming an important discovery layer across ChatGPT, Perplexity, Gemini, and Google AI experiences. This section evaluates whether the brand and content are structured in a way that can be understood, trusted, and cited by modern search and AI systems.

This is a growing opportunity area. Many competitors have not yet optimised for AI visibility, so improvements here can create a meaningful early advantage.

SERP Performance

Recommended Next Steps

A prioritised action plan based on this audit

1

Fix 3 Critical Issues

These failures have the highest impact on performance, user experience, and search visibility. Address them before anything else.

2

Strengthen On-Page & Content - Score: 83/100

This is the weakest area in the audit. A focused effort here will have the highest impact on overall site health and score.

3

Work Through the Top Priority Issues

Each priority issue in this report includes a specific action step. These are your clearest, most actionable next steps.

4

Strengthen AI Visibility and Trust Signals

AI search engines (ChatGPT, Perplexity, Google AI Overviews) are becoming major traffic sources. Ensure your brand, authors, and content are optimised for this layer.

5

Re-run This Audit in 4 to 8 Weeks

Track your progress by re-running the audit after implementing changes. Use the score difference to demonstrate the value of your work to stakeholders.

This report provides a clear starting point. Prioritising the critical issues will deliver the fastest measurable results.

Audit conducted: May 23, 2026

About This Audit

This UX + SEO audit was conducted for example-ecommerce.com on May 23, 2026. It covers 211 checkpoints across Technical SEO, On-Page Content, UX Heuristics, Conversion & CTA, and AI Visibility. Some checks require verification with external tools (Google Search Console, PageSpeed Insights, Screaming Frog, etc.). This report is a professional client deliverable - review it in the context of the site's specific goals.

How Scores Are Calculated

Scores are based only on reviewed applicable checks. Blank items are excluded entirely - they do not count as passes or failures. N/A items are excluded as they do not apply to this site. Below 30% coverage: preliminary result, grade withheld. 30-59% coverage: directional reviewed score, medium-low confidence - no letter grade is assigned at this level. 60-79%: indicative result, grade shown. 80%+: full audit score, final grade. A high score from a small number of reviewed checks does not imply the full website is strong.
